## TECHNICAL ADVANTAGES

### ○ UNIVERZALNA INSTALACIJA

Ugradnja u montažne kutije Ø60 uz pomoć vijaka ili odvijača. Mogućnost nizanja kutija. Program Experience se na ovaj način može ugradjivati kod adaptacije postojećih instalacija bez ugradnje novih montažnih kutija.

### UNIVERSAL INSTALLATION

*Installation into the mounting box Ø60 with screws or screw clamps. The possibility of installation of mounting frames in row. Program Experience in this way can be installed in adaptation of existing installations without installing of new prefabricated mounting boxes.*

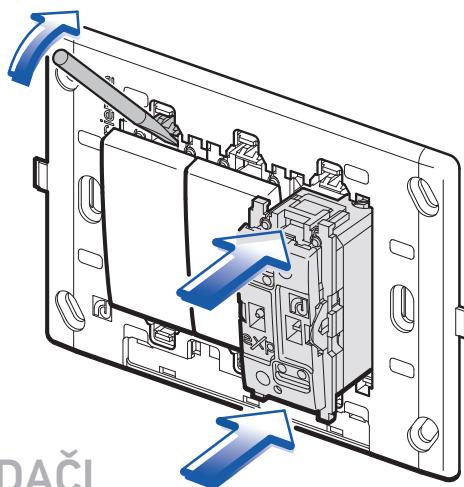

### □ MODULARNA INSTALACIJA

Za sklopove 3 ili više modula osigurane su posebne montažne kutije na koje se prirubnica montira pomoću vijaka. Vijci se isporučuju zajedno sa prirubnicom. Montažne kutije mogu biti za pune i za šuplje zidove.

### MODULAR INSTALLATION

*For the assembly of 3 or more modules we are providing special mounting boxes where mounting frame is installing by screws. Screws are supplied together with the mounting frame. Mounting boxes are made for full and hollow walls.*

## PREKIDAČI

Experience prekidači su jasno označeni i sigurni za povezivanje zahvaljujući šemi koja se nalazi sa strane prekidača (smanjen je rizik od pogrešne instalacije).

U prirubnicu se postavljaju ručnim utiskivanjem sa prednje strane, bez skidanja prirubnice sa montažne kutije. Demontaža prekidača se također vrši sa prednje strane bez skidanja prirubnice s montažne kutije. Dovoljno je odvijačem otkačiti modul prekidača.

Prekidači imaju jednostavne vijčane priključke koji omogućavaju sigurnu i brzu montažu. Opremljeni su uvodnim otvorima za lakše uvođenje vodiča. Prihvataju dva vodiča presjeka do  $4\text{mm}^2$ . Vijci su osigurani od ispadanja.

LED indikacije za prekidače (za indikaciju kada je prekidač uključena ili isključena) postoje u dvije varijante: sa kontaktima i sa provodnicima. Korisniku je data mogućnost izbora boje indikacije (crvena, plava, zelena, bijela).

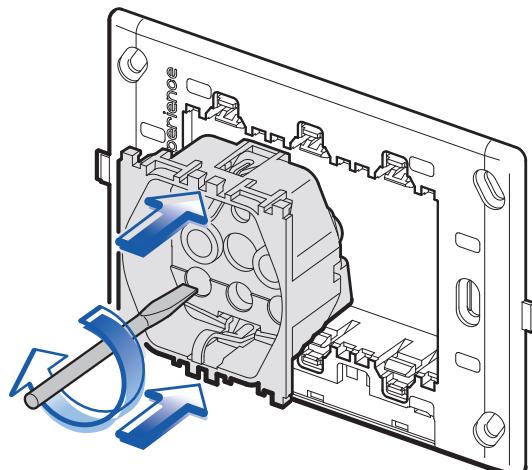

## SWITCHES

*Experience switches are clearly marked and safe for connectivity thanks to the scheme, which is located on the side of the switch (reduced risk of incorrect installation).*

*Installing the module switch into the mounting frame is simply done by hand pressing from the front side, without removing the mounting frame from the mounting box. Disassembly is also done from the front side without removing the mounting frame from the mounting box. It is only needed to remove module by screwdriver.*

*Switches have simple screw connectors that allow safe and fast installation. Switches have inlets for easier implementation of conductors. Inlets can wire two conductors up to  $4\text{mm}^2$ . The screws are secured from falling out.*

*LED lamp for switches (for indication when the switch is ON or OFF) are offered in two types: with contacts and with conductors. Customer can choose the color of light (red, blue, green, white).*

## UTIČNICE

Experience utičnice odgovaraju strogim standardima i sigurnosnim provjerama. Utičnice su opremljene vijčanim priključcima s uvodima za lakše uvođenje dva vodiča presjeka do  $2,5\text{mm}^2$ .

Utičnice se rade i u varijanti sa membranama koje osiguravaju zaštitu za djecu sprječavanjem umetanja predmeta u utičnicu.

Montaža i demontaža u prirubnicu se vrši na isti način kao i kod prekidača.

### Prednosti utičnica Experience:

- veoma jednostavna montaža i demontaža
- pritezanje vodiča se vrši sa prednje strane i moguće je i kada je utičnica utisнута u prirubnicu (olakšava laku montažu kratkih vodiča, krutih vodiča, velikog broja vodiča u kutiji)

## SOCKET OUTLETS

*Experience socket outlets are complied with strict standards and safety checkouts. Socket outlets are supplied with screw connections with introductions to facilitate the introduction of two conductors up to  $2,5\text{mm}^2$ .*

*Sockets are made with membranes that provide protection for children by preventing insertion of objects into the socket outlet.*

*Installation and disassembly into the mounting frame is done the same way as for the switches.*

### Experience socket outlet advantages:

- user friendly assembly and dis-assembly
- tightening of the conductors is done from the front and is possible even when the socket outlet is inside the mounting frame (facilitates easy installation of short conductors, hard conductors, a large number of conductors in a mounting box)

### KOMUNIKACIJE

Telefon, TV, Internet – teško je zamisliti sadašnjicu bez komunikacija. Experience komunikacijske utičnice garantiraju optimalnu povezanost i visoku pouzdanost prijenosa podataka kroz konektore RJ12 i RJ45 koji zadovoljavaju standarde Cat3, Cat5e, Cat6 i Cat6A.

Provodnici se spajaju u konektore bez upotrebe alata (toolless) umetanjem vodiča koji se automatski vezuje sa kontaktima zatvaranjem konektora. Konektori RJ45 zadovoljavaju standarde SPAJANJA TIA/EIA 568A ili 568B.

### COMMUNICATIONS

Telephone, TV, Internet – it is hard to imagine the present without communications. Experience communications modules guarantee optimal connection and high reliability of data transfer through the RJ12 and RJ45 connectors that meet the standards Cat3, Cat5e, Cat6 and Cat6A.

The conductors are connected to the connectors without tools (tool-less) by inserting conductor that is automatically associated with contact closure connector. RJ45 connectors meet the standards binding TIA / EIA 568A or 568B.

## DEKORATIVNE MASKE

Maska modularnog programa Experience svojom nekonvencionalnom dimenzijom (92mm visine) i svojim jasnim geometrijskim linijama zadovoljavaju i klasične i moderne zahtjeve korisnika.

Novina Experience modularnog sistema je posebno dizajniran nosač maske, koji je sastavni dio dekorativne mase. Nosač maske proizvodi se u tri boje: bijela, crna i srebrna. Sa prednje strane vidi se kao međuram koji naglašava dizajn maske. Gledano sa strane, maska sa nosačem djeluje kao da „lebdi“ na zidu.

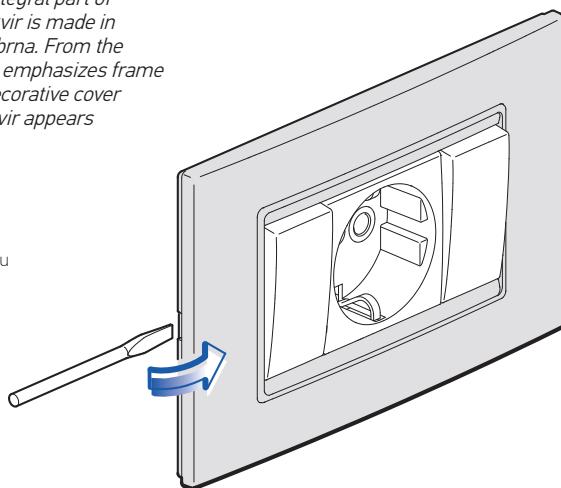

## DECORATIVE COVER FRAMES

*Cover frames of modular program Experience with its unconventional dimensions (92mm in height) and it's clear geometric lines meet both classic and modern customer demands.*

*Novelty of Experience modular program is specially designed frame okvir; that is an integral part of decorative cover frame. Frame okvir is made in three colors: white, black and Srebrna. From the front it looks like inner frame that emphasizes frame design. Seen from the side, the decorative cover frame together with the frame okvir appears to "float" on the wall.*

- Prekrivna maska se postavlja bez alata jednostavnim utiskivanjem na prirubnicu
- Skidanje maske je veoma jednostavno i izvodi se odvijačem na predviđenom mjestu čime se smanjuje mogućnost oštećenja

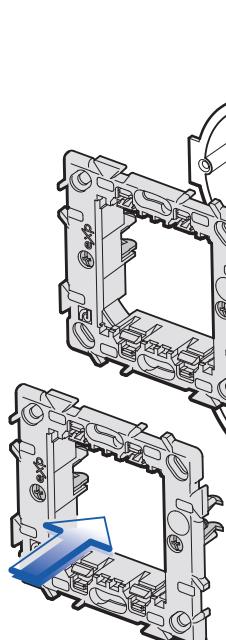

- The covering frame is positioned without any tools by simple pressing onto the flange
- The removal of frame is very simple by using the screw driver on the provided point thus reducing the possibility of any damage

## PRIRUBNICE

Prirubnica je konstruirana tako da poseduje čvrstinu i otpornost na udare i vrlo je jednostavna za ugradnju. Fleksibilna montaža čak i kod neravnih zidova omogućuje da postavljeni sklop uvijek stoji ravno.

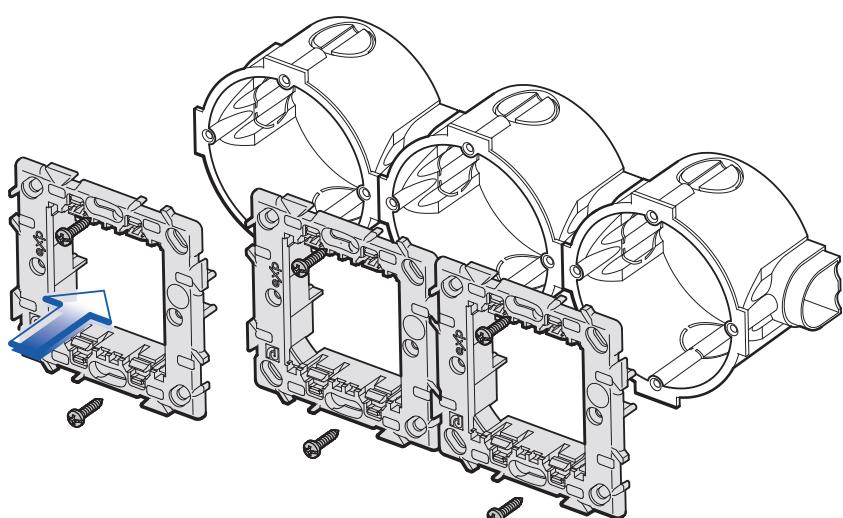

Mesta za ugradnju na prirubnici i simetrična geometrija prirubnice 2M omogućava horizontalnu i vertikalnu ugradnju u nizu.

## MOUNTING FRAMES

*Mounting frame is designed to be hard, withstand impacts and is very easy for installation. A flexible installation allows that even at rough walls assembly can be installed straight.*

*Holes on mounting frame and symmetric geometry of mounting frame 2M are allowing horizontal and vertical installation in a row.*

- Sklopovi se mogu nizati horizontalno i tada je moguće spajanje kutija različite veličine.
- Ili vertikalno, gde se mogu nizati samo kutije iste veličine.

- The assemblies can be followed in a row horizontally and then it is possible to connect the installation boxes of various sizes.
- Or vertically, where only the boxes of the same size can follow in a row.

# ČUVAR VAŠEG ZDRAVLJA

- Antibakterijski program izrađen u standardnom ALING EXPERIENCE dizajnu i isključivo u bijeloj boji ima funkciju zaštite korisnika od prenošenja bakterija, virusa, mikroba i glijivica čestim dodirivanjem. Dnevno više korisnika dodiruju tipkalo, utičnice, maske. Ovo je naročito izraženo u javnim i zdravstvenim ustanovama tako da je prednja površina idealno mjesto za razvoj i širenje bakterija.
- Specijalni aditivi na bazi srebrnih jona koji se dodaju u plastične mase tokom vremena uništavaju i sprečavaju dalje širenje bakterija na površini plastike. Zahvaljujući ovim karakteristikama srebra postiže se veoma efikasna i dugotrajna zaštita zdravlja svih korisnika koji dolaze u dodir sa prekidačima, maskama i utičnicama.
- Prvenstveno je značajna primjena u svim prostorima gdje se zahtjeva visoki stupanj higijene kao što su bolnice i druge zdravstvene ustanove, restorani, autobusne i željezničke stanice, aerodromi, školske ustanove, stanovi sa bolesnim osobama osjetljivim na bakterije i virus, stanovi zdravstvenih radnika, trgovacki i poslovni centri, javne ustanove (sudovi, općine, muzeji, kinodvorane, sportski objekti i sl.)
- Proizvodi su testirani u skladu sa standardom JIS Z 2801 i posjeduju visoki stupanj redukcije bakterija na površini plastike.
- Održavanje i čišćenje se sprovodi isto kao i kod proizvoda koji nemaju antibakterijsku zaštitu.
- Proizvodi su identični kao i standardni program sa dodatkom oznakom A ispred oznake proizvoda.
- Sve maske antibakterijskog programa označene su znakom raspoznavanja

# YOUR HEALTH GUARDIAN

- Antibacterial program made in standard ALING MODE design and exclusively in white color has a function to protect user from transmission of bacterial viruses, microbes and fungi during the often touching. During the day more users touches the switch buttons, covering frames and socket blocks. It is especially expressed in the public and medical institutions, so that the front surface is perfect place for growth and spread of bacteria.
- The special additives on Srebrena ions that were added to plastic compounds damage and block bacteria spread on the plastic surface. With the help of this Srebrena characteristic there is very effective and long term protection of health for all users which are in contact with switches, covering frames and sockets.
- At the first time application is important at the places where a high level of hygiene is required like hospitals and other medical institutions, restaurants, bus and train stations, airports, schools, apartments with the sick persons which are sensitive on bacteria and viruses, medical employees apartments, shopping and business centers, public institutions (courthouses, townships, museums, cinemas, sport arenas).
- The products are tested according the standard JIS Z 2801 and they have a high level of bacteria reduction on plastic surface.
- Cleaning and maintenance is same like products without antibacterial protection.
- Products are identical with standard program with additional mark A ahead of product mark.
- All covering frames are marked with sign of recognition
